Product Designation

Product Group:	Hot pressing devices
Joining System:	Quickmelt

Description

The PQ-59 is a hot pressing device for joining of Habasit machine- and spindle tapes up to a width of 50 mm and a thickness of 3.6 mm with the Quickmelt or Flexproof method. With an additional cooling tong and a guide rail in the width required for your application you have a joining system that enables you to exchange a tape in minutes. New features of PQ-59 are a status indication (LED display) and an overheating protection which provides an improved tool reliability. Thanks to this new control unit it is now possible to enter the temperature in a range between 120°C to 190°C.
